*County and State of Residence:	Escambia County, FL
*Position on Board:	Board Member

Project Narrative

Project Information	
*Project Title:	The Little School House
*Project Start Date (no earlier than October 14, 2019):	10/14/2019
*Project End Date (no later than Oct 1, 2021):	6/30/2020
*Project Summary (150 words or less):	
<p>The Little School House (LSH) will be a location that not only the children at Northside Middle School can attend after school for tutoring and coaching but also will provide the same options for the children attending William Middle School and S.A. Middle School by being located in a central location. The LSH will provide free after school and summer tutoring in academics as well as coaching for those children interested in sports.</p>	
*Describe how your project fulfills the goals of your chosen focus area (150 words or less):	
<p>The education focus area was the most natural choice and the best fit. This project will be directly effecting and working with middle school students to increase their desire to learn which will help them be more prepared and confident with high school and its requirements.</p>	
Target Population	
*Describe the target population. Include demographics on population and geographic area to be served (250 words or less):	
<p>Northside Middle School has 276 students of which 59 have been determined to be at risk in their reading performance for a variety of reasons including learning disabilities such as ADD or dyslexia, or other economic difficulties. William Middle School has a total of 325 students of which 76 are scored with below normal reading ability. S.A. Middle School, has a total of 197 students of which 47 are below average readers.</p>	
*Describe the specific need for your project in the community (250 words or less):	
<p>Education success is dependent on reading abilities. Studies have shown that poor readers, wha are reading at a grade level or more behind are more like to be disruptive in the classroom, truant from school not interested in becoming a team sport player and at risk of dropping out of hight school.</p>	
Goals	
*Describe what you hope to accomplish through the proposed project (250 words or less):	
<p>The objective is that by building the LSH, ABC Services will be able offer more students the needed assistance through tutoring to build their confidence in reading, understanding of other class subjects and importance of being involved with others through any sport. Having a space to include all 3 local schools, who will all feed into the same high school, will also allow the students to make friends and know more of the other students when they all merge together at Baker High School in 9th grade.</p>	
*Describe how or why you selected this issue (200 words or less):	
<p>Grades indicate that while our students scored above the 50th percentile nationally in mathematics in 2010 and 2011, they scored below the 50th percentile both in reading and language. We believe this is in part due to the fact that children have not been provided the opportunity for after school tutoring or coaching to help get them excited about learning and to also increase their confidence.</p>	
*What is the expected impact on the target population and the overall community (250 words or less):	
<p>Northside Middle School has been a "C" school since FCAT testing has been used. Williams Middle School a "D" school and S.A. Middle School a "B" school. The Florida School Recognition Program provides public recognition and financial awards to schools that have sustained high student performance or schools that demonstrate substantial improvement in student performance. Schools qualify fo the award if they receive an "A" or improve more than one letter grand and sustain the improvement the following school year, or a re designated as Alternative School and receive a school improvement rating of "Improving" or improve at least one level. We expect that all 3 schools will move up at least one letter grade after only two years of instituting the LSH.</p>	
* Describe how this project fits into your organization's mission/vision(250 words or less):	

2019 IMPACT 100 Letter of Intent and Grant - Grant Example | Example, Grant

<p>It directly ties to our mission to prepare students for academic success and to face the challenges of the future, particularly with regard to high school success. This project will ensure many more students achieve success in taking a role in society as productive citizens and help develop a personal commitment to learning by improving their reading skills.</p>	
<p>Management</p>	
<p>*Describe how you will accomplish your goals (250 words or less):</p>	
<p>Standardized reading tests will be conducted at the start of each school year for all those who register to attend the Little School House. This will happen again at the end of each semester to determine any increases in reading speed and comprehension.</p>	
<p>*Describe the specific activities and services that will be provided through this project (250 words or less):</p>	
<p>1. Providing a measurable increase in reading speed, comprehension, and reading attention span. the objective is that the students will double their reading speed and increase their reading skills by one to two grade levels by the end of the the school year. 2. Enabling poor readers to access the general curriculum through the use of assistive reading technology to scan and read their textbooks and other classroom materials. 3. Providing learning disabled students with a multi-sensory reading alternative that will help them increase their reading speed to the point they can read on their own. 4. Helping learning and reading disabled students succeed in their regular classroom with their peers, so they can continue learning tint he leases restrictive environment.</p>	
<p>*Do you anticipate grant funds to be paid directly to your provider or will your organization be reimbursed for expenditures or will there be a combination of both (150 words or less)?</p>	
<p>We expect most of the funds to be paid directly to our providers, especially the land and building purchase. For smaller items like landscaping and signage, we will purchase and file for reimbursement.</p>	
<p>*Who will have the authorization to sign draw requests for your organization?</p>	<p>Betty Bets</p>
<p>*Who in your organization will be responsible for submitting quarterly reports? Final report?</p>	<p>Betty Bets</p>
<p>Does your project include construction?</p>	<p>Yes</p>
<p>*If your project includes construction, please select all that apply.</p>	<p>Erecting a fabricated structure</p>
<p>*Briefly describe your construction plans.(250 words or less)</p>	
<p>We will purchase the lot. Order the prefabricated building and then have the building erected and connected to be ready to go.</p>	
<p>Which construction related expenses are included in your project budget?</p>	<p>Permitting Building Land Acquisition Materials Labor Other Construction</p>
<p>*How many bids do you have for your construction project? Note: While 2 bids are recommended to ensure project budget is based on realistic costs, a minimum of 1 bid must be submitted.</p>	<p>1</p>
<p>*Check which Construction-related Supporting Documents will be provided. Note: If work is being done on a site that is not owned by the organization, evidence of a lease for at least 5 years is required.</p>	<p>Permits Builder's County and/or City License Builder's Certificate of Insurance</p>
<p>Briefly, describe all estimates you are attaching to this application. Construction related documents can be uploaded in the "Construction Info" section of your Dashboard, while other supporting documents can be uploaded in the "Project Supporting Documents" section (1,000 words or less).</p>	
<p>We are attaching copies of the cost estimates, a letter of commitment, permit application, and builders certificate of insurance and license. Also attached is the lot plan and the blue prints for the prefabricated school house.</p>	
<p>Evaluation</p>	
<p>*Describe how you will know when you have accomplished your goals (250 words or less).</p>	
<p>The first goal will be accomplished when we purchase the land and install the building. The 2nd goal will be accomplished when we have students from all 3 middle schools register for sessions, instead of just Northside Middle School. The 3rd goal will be accomplished when we have 3 semesters of reading ability tests that show consistent improvement over all 3 semesters.</p>	
<p>* Describe how you plan to measure impact and results (250 words or less):</p>	
<p>Results for building will be completion. Results for expanding will be registrations from all 3 schools. Results from student test scores will be the measurable impact for the actual goal of assisting these student through to being more confident and better prepared for the world to come.</p>	

2019 IMPACT 100 Letter of Intent and Grant - Grant Example | Example, Grant

Other Funding Sources
If you have applied for other grants for this project, please describe (200 words or less):
We have a 10,000 foundation grant from XXXFoundation that we have already received.
If your project cost exceeds the IMPACT grant amount, please describe the other funding sources your organization has available to complete this project (200 words or less):
We have a 10,000 foundation donation that has already been deposited in our savings account and is for this project only.
Timeline
* Describe the anticipated timeline for execution of the project, and supporting fund distribution for each stage (300 words or less):
The land purchase will be initiated as soon as grant has been acknowledged. Hopefully to close by 11/15/2019. Then as soon as that is closed, we will order the prefab school house and begin leveling the property. As soon as the school house is built and open for occupancy, we will do the landscaping and the signage. We anticipate all this to be done by 6/30/2020. This will allow us to start opening the LSH to those interested on 7/15/2019 so that they can have a 2 week session before school starts.
Sustainability
*Describe your plans for sustainability of this project, including personnel, funding, maintenance and any other applicable resources (300 words or less):
Once the school house is built, the City of Pensacola will take over paying the staff and the utilities to keep it running. It will be the property of ABC Services and the employees will be the staff and the volunteers will be managed from their as well. However since this is a service provided to children in Pensacola, the City will provide the salary and the utilities and the upkeep for as long as the school is there.

Project Budget

Project Revenues	
Please round to whole numbers.	
IF the total project expense exceeds the amount of the IMPACT 100 grant, details must be provided about the additional project funds, such as other grants received, federal funding, lines of credit, etc
